

**Centers for Medicare & Medicaid Services (CMS) Quality Program
Extraordinary Circumstances Exceptions (ECE) Request Form**

A hospital or healthcare facility that has experienced an extraordinary circumstance(s) that affected the ability of the healthcare facility to comply with one or more applicable quality reporting and value-based purchasing program reporting requirements may submit this form to CMS **within 60 calendar days of the date the extraordinary circumstance occurred** (or by April 1st or June 15th following the end of the reporting year in which the extraordinary circumstance occurred for electronic clinical quality measures (eCQMs) for the Hospital Inpatient Quality Reporting Program and Hospital Outpatient Quality Reporting Program, respectively) to request an exception or extension for the requirement(s). An extraordinary circumstance is an event beyond the control of a healthcare facility (for example, a natural or man-made disaster such as a hurricane, tornado, earthquake, terrorist attack, or bombing, or issues with CMS-designated information systems that directly affect the ability of the facility to submit data).

CMS may grant either an exception or, if appropriate under the circumstances, an extension of time to comply with one or more reporting requirements indicated. Please refer to the *Federal Register* and *Code of Federal Regulations* for additional information regarding program-specific ECE policies.

Note: An ECE request form may be submitted for multiple programs, requirements, and/or reporting periods. CMS reviews ECE requests on a case-by-case basis. The **submission of an ECE request does not guarantee complete or partial approval.**

An asterisk (*) indicates required fields. All sections must be complete and specific for CMS to consider the request.
