Subject: Review Your Oct 2026 HSRs and Updated Public Reporting Preview Report

Review your hospital's October 2026 Publicly Reported Measures Hospital Specific Reports s and updated Public Reporting Preview Report data by September 18, 2026 prior to public reporting.

HSRs for the following measures are available for preview:

Measure:
Patient Safety Measures
CMS ISCMR – Thirty-Day Risk-Standardized Death Rate among Surgical Inpatients with Complications (Inpatient Surgical Complications Mortality Rate)
CMS PSI 90 – Patient Safety and Adverse Events Composite, calculated based on ten component PSIs .
HH-AKI – Hospital Harm-Acute Kidney Injury Electronic Clinical Quality Measure (eCQM)
Maternal Health Measures
PC-07 – Severe Obstetric Complications Electronic Clinical Quality Measure (eCQM), includes two outcomes: a. All severe obstetric complications b. Severe obstetric complications excluding delivery hospitalizations for which a blood transfusion was the only numerator event.

Please note: October 2026 public reporting preview report details have recently been updated for the EDAC, PSI, and ISCMR measures. The updated preview report data are consistent with the details found in the HSRs for these measures.

The Preview Period began on August 20, 2026 and will end on September 18, 2026.

Hospitals can review their HSRs, available through the [Hospital Quality Reporting \(HQR\) system](#), and submit questions about their calculations through the [QualityNet Question and Answer Tool](#) **no later than 11:59 p.m. PT on September 18, 2026.**

Hospitals cannot request corrections to the underlying claims data or add new claims to the data extract during the Preview Period. More information about the preview period process is available in the HSR User Guides available within the HQR system and on the applicable measures' page on QualityNet.

Hospitals should not include personally identifiable information (PII) or protected health information (PHI) in emails. When referring to the contents of the HSR, use the ID Number.

The HSRs include hospital-level performance data displayed on the *Measure detail dashboard* of the [HQR System](#), as well as downloadable comma-separated values (CSV) files with additional details and your hospital's discharge-level data. Hospital-level performance data is also available in downloadable portable document format (PDF) files. Each report has an accompanying user guide with information about the contents of the HSRs.
